

We humbly request your generous support to provide a necessity - clean drinking water - to the students of ZPHS Champapet.

Our school, catering to 750 underprivileged students, is facing an acute water shortage. The absence of a reliable water source affects not only the students' health but also their overall well-being and academic performance.

We kindly request your assistance in drilling a borewell in our school premises. This will ensure a steady supply of clean water for drinking and sanitation purposes.

Your contribution will have a lasting impact on the lives of our students, providing them with a fundamental right - access to clean water.

We appreciate your consideration and look forward to your support.

Thank you.

ZPHS Champapet
